**ATTACHMENT B - PROJECT DESCRIPTION****Project Title: Junior Faculty Development - University of Houston-Downtown Structural Analysis and Design Option in Engineering Technology**

The University of Houston-Downtown (UHD), established in 1974, is a state university and one of the four distinct institutions in the University of Houston System. The Structural Analysis and Design program in Engineering Technology is a four-year undergraduate program focusing on civil engineering applications. As a minority- and Hispanic- serving institution, UHD serves the greater Houston metropolitan area with a diverse student population. The city of Houston is an energy hub with several companies working in the nuclear sector such as CBI, Jacobs Engineering Group, etc. and two nuclear power plants in a driving distance. Core value of UHD and the Department of Computer Science and Engineering Technology (CSET) is to provide students with high impact activities and the opportunity to learn, discover, and practice through research. This initiative differentiates UHD's undergraduate academic programs from other similar programs.

The proposed Faculty Development Program will assist [REDACTED] to maintain and expand her research on the risk-informed design of nuclear piping and obtain tenure in the following years by excelling in research, teaching, and service. [REDACTED] joined the UHD Computer Science and Engineering Technology Department in August 2015. [REDACTED] was selected for NRC's Faculty Development Program due to her strong educational, research, and professional background in the nuclear industry. Over the past year, she has demonstrated a commitment to excellence in teaching and research. This is testified by her highly graded annual faculty evaluation. She has strong communication skills and is a selfstarter, contributing to the advancement of the Structural Analysis and Design Program. [REDACTED] advances research in the CSET Department by supervising four undergraduate research students.

[REDACTED] outstanding performance supported by this development program will make a significant contribution to the enhancement of UHD's academic programs by attracting more students to the discipline which will ultimately increase the number of knowledgeable young professionals in the workforce. It is therefore vital for UHD to retain and develop faculty such as [REDACTED] who demonstrates continuous and outstanding performance in teaching, research, and service. The proposed development plan listed below will enhance [REDACTED] potential to obtain tenure while also contributing to the nuclear sector.

- a. One course release and two courses salary support in summer per academic year
- b. Three undergraduate research assistants per year
- c. Attendance of the ASME B&PV Code committees of which the faculty is a member as well as conferences to present the research results

The course release and summer support will allow [REDACTED] more time for research during the academic year and engagement during the summer months, when no teaching is required. The participation of three research students per academic year will enhance [REDACTED] teaching capabilities. Students will be taught necessary material for the reliability and risk analysis of structures, piping design according to the ASME B&PV Code, and how to use commercial piping analysis programs. Service to the profession will be enhanced by the attendance of the ASME B&PV Code meetings, where the faculty will present ongoing research to relevant working groups such as the Piping Design and Design Methodology. [REDACTED] will

remain current and productive in the nuclear field. Publication in journals and presentations at conferences such as the ASME PVP conference will further develop the faculty for service in the engineering profession and help build a reputation in the field.

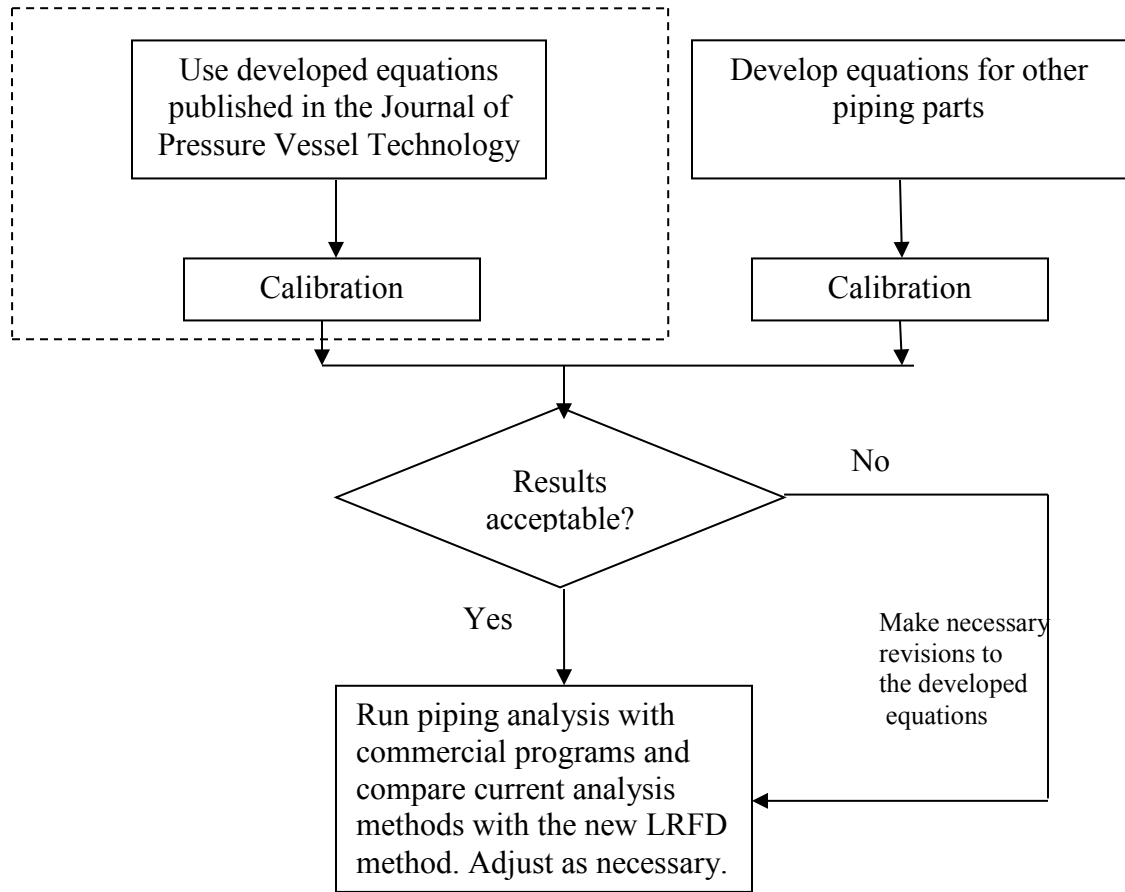

### **RESEARCH PLAN AND CONTRIBUTIONS TO THE NUCLEAR SECTOR**

██████████ has made significant contributions to the nuclear sector by developing Load and Resistance Factor Design (LRFD) equations for Safety Class 2 and 3 straight nuclear pipes for different levels of reliability. The developed LRFD equations are advantageous over the Allowable Stress Design (ASD) equations used today in the ASME Boiler and Pressure Vessel (B&PV) Code, because they provide known, controlled, and consistent reliability for piping. However, for the nuclear industry to use this methodology for the design of piping, further development is needed in the following areas:

1. Define the target reliability index (calibration) or else accepted probability of failure for each developed LRFD equation, combining the effect of different loadings, for Design and other Service Levels per the ASME B&PV Code.
2. Revisit the evaluated mean partial safety factors and based on the calibration results, revise the variables probabilistic characteristics and equations, as necessary.
3. Develop LRFD equations for other parts of piping (e.g., tees, elbows, etc.) and calibrate equations.
4. Use the developed LRFD equations with commercial piping programs and make comparisons of results with the currently used Allowable Stress Design (ASD) equations. Justify any inconsistencies and revise as necessary.

Figure 1 illustrates the activities proposed for this development program. The activities in the dashed rectangular shape are under development by current ongoing research that addresses piping made of carbon steel and only few equations that deal with earthquake loading and internal pressure. Research results with student contribution will be presented in 2017. The proposed research will benefit the nuclear sector broadly and more specifically will:

1. Provide a common interface between Sections III and IX of the ASME B&PV Code and performance of piping will be evaluated from design to decommission.
2. Provide input to the international nuclear community for the quantification of the reliability of nuclear piping and its use in a system based environment both for new and operating plants.
3. Prepare the participating research students for becoming successful analysts of nuclear components and/or continuing their studies in a nuclear or any other relevant graduate program.
4. Demonstrate the use of the equations in commercial piping software and provide illustrative analysis examples with the current and the LRFD rules.

**Figure 1: Plan for research. In dashed rectangular box ongoing research for carbon steel**

**PROJECT START DATE**

The project anticipates a June 1, 2017 start date for a duration of three years. Necessary arrangements will take place immediately to accommodate the research assistant students and obtain the necessary software tools.

**MANAGEMENT STRUCTURE AND ADMINISTRATION OF THE PROGRAM**

UHD’s Office of Research and Sponsored Programs (ORSP) is responsible for providing compliance oversight and award management for all federal- and state-funded projects. Operating through delegation of authority from the Provost and Senior Vice President for Academic Affairs, ORSP serves as a central point of contact for sponsors and contract officers regarding administrative matters throughout the duration of the grant-funded project. ORSP’s Post-Award Administration works closely with PIs to monitor grant expenditures and to provide the necessary support to ensure the successful completion of the project including award modifications, invoicing, financial reporting, and award close-out.

UHD has the capacity to manage small and large scale externally funded projects and currently provides compliance oversight for over [REDACTED] including awards from the [REDACTED]

## EVALUATION PLAN

The faculty's performance will be aligned with the UHD's promotion and tenure requirements, which are well established and are considered the annual faculty evaluation rubrics of the Department of Computer Science and Engineering Technology. Faculty members are evaluated yearly in: 50% teaching, 25% research, and 25% service to the University and Profession. [REDACTED] will evaluate [REDACTED] based on the written report provided by the end of the year in December. Additionally, a performance report will be provided for evaluation semi-annually, as a direct indicator of performance, on the following:

1. Scholarly output in the form of peer reviewed journal and conference proceeding papers, which are reviewed by experts in the field.
2. Excellent rating from the exit interviews of the research students, who will be participating in the program. The students will evaluate [REDACTED] teaching skills and responsiveness along with the knowledge and skills gained during their research assignments.
3. Student teaching evaluations contacted by the end of each semester for the course taught by the faculty will also be considered.

In the second year of the grant, which corresponds to the fourth year of employment of the faculty with UHD, the independent Department Rank and Tenure Committee will provide a written evaluation in all three evaluation areas of teaching, research, and service. [REDACTED] will be given feedback from each evaluation and resources to help her improve performance. Successful development of the faculty will have indirect effects as well that will be monitored and reported such as the increase of the number of students participating in the Structural Analysis and Design program, the increase of graduating students and their ability to get engineering jobs upon graduation.

## INSTITUTIONAL SUPPORT AND SUSTAINABILITY

The Department will support [REDACTED] by allowing for one course release per academic year to be taken during the fall or spring academic semester and a strong evaluation plan that will provide regularly feedback and suggestions for improvement. No courses will be assigned to the faculty during the summer months. [REDACTED]

[REDACTED], will serve as [REDACTED] mentor during the grant duration. [REDACTED] has a strong record with undergraduate student research and has supervised more than twentyfive undergraduate students during his tenure.

Upon successful completion of this program the faculty will submit with the portfolio for tenure, including the final report and scholarly achievements and outcomes of this program. This will allow for her promotion and tenure in the Structural Analysis and Design in Engineering Technology program and assure future leadership and mentorship positions for her.

UHD has a successful and continuous collaboration with the NRC that will be further empowered through this program. Our student graduates will become ambassadors and a highly knowledgeable and qualified workforce for the nuclear industry.

## ATTACHMENT C – STANDARD TERMS AND CONDITIONS

### The Nuclear Regulatory Commission's Standard Terms and Conditions for U.S. Nongovernmental Recipients

#### Preface

This award is based on the application submitted to, and as approved by, the Nuclear Regulatory Commission (NRC) under the authorization [42 U.S.C. § 2051\(b\)](#), pursuant to section 31b and 141b of the Atomic Energy Act of 1954, as amended, and is subject to the terms and conditions incorporated either directly or by reference in the grant or cooperative agreement. The following also apply:

- Restrictions on the expenditure of Federal funds in appropriation acts, to the extent those restrictions are pertinent to the award.
- Code of Federal Regulations/Regulatory Requirements – [2 CFR Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards](#).

Any inconsistency or conflict in terms and conditions specified in the award will be resolved according to the following order of precedence: public laws, regulations, applicable notices published in the Federal Register, Executive Orders (E.O.), Office of Management and Budget (OMB) Circulars, the NRC's Mandatory Standard Provisions, special award conditions, and standard award conditions.

Certifications and Representations: These terms incorporate the certifications and representations required by statute, executive order, or regulation that were submitted with the SF424B application through [GRANTS.GOV](#).

#### **I. Mandatory General Requirements**

The order of these requirements does not make one requirement more important than any other requirement.

##### **1. Applicability of 2 CFR Part 200**

All provisions of 2 CFR Part 200 and all Standard Provisions attached to this grant/cooperative agreement are applicable to the Recipient and to sub-recipients which meet the definition of "Recipient" in 2 Part [§200.86](#), unless a section specifically excludes a sub-recipient from coverage. The Recipient and any sub-recipients must, in addition to the assurances made as part of the application, comply and require each of its sub-awardees employed in the completion of the project to comply with [Subpart D](#) of [2 CFR Part 200](#) and include this term in lower-tier (sub-award) covered transactions.

Recipients must comply with monitoring procedures and audit requirements in accordance with [2 CFR Part 200, Subpart F—AUDIT REQUIREMENTS](#).

##### **2. Award Package**

The Recipient is obligated to conduct project oversight as may be appropriate, to manage the funds with prudence, and to comply with the provisions outlined in [2 CFR Part 200](#). Within this framework, the Principal Investigator (PI) named on the award face page, is responsible for the scientific or technical direction of the project and for preparation of the project performance

reports. This award is funded on a cost-reimbursement basis, not to exceed the amount awarded as indicated on the face page, and is subject to a refund of unexpended grant funds to the NRC.

The non-Federal entity alone must be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements related to its grant award. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the non-Federal entity of any financial or fiduciary responsibilities or obligations arising under its grant, including sub-contracts and sub-awards, or any other contractual or financial obligation. The Federal awarding agency will not substitute its judgment for that of the non-Federal entity unless the matter is primarily a Federal concern. Violations of law will be referred to the local, State, or Federal authority having proper jurisdiction. See [2 CFR § 200.318\(k\)](#), General Procurement Standards.

### **Subawards**

[Appendix II to Part 200](#) Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

Sub-recipients, sub-awardees, and contractors have no relationship with NRC under the terms of this grant/cooperative agreement. All required NRC approvals must be directed through the Recipient to NRC. See [2 CFR § 200.318](#).

### **Nondiscrimination**

This provision is applicable when work under the grant/cooperative agreement is performed in the U.S. or when employees are recruited in the U.S.

The Recipient agrees to comply with the non-discrimination requirements below:

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. §§ 2000d et seq.), which prohibits discrimination on the grounds of race, color, or national origin in any program or activity receiving federal financial assistance.
- Title IX of the Education Amendments of 1972 (20 U.S.C. §§ 1681 et seq.), which prohibits discrimination on the basis of sex in any education program or activity receiving federal financial assistance.
- Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794), which prohibits discrimination on the basis of disability in any program or activity receiving federal financial assistance.
- The Age Discrimination Act of 1975, as amended (42 U.S.C. §§ 6101 et seq.), which prohibits discrimination on the basis of age in any program receiving federal financial assistance.
- The Americans with Disabilities Act of 1990 (42 U.S.C. §§ 12101 et seq.), which prohibits recipients from discriminating on the basis of disability in employment (Title I); State and local government services (Title II); and places of public accommodation and commercial facilities (Title III).
- Parts II and III of E.O. 11246, as amended by E.O. 11375, 11478, 12086, 12107, 13279, 13665, and 13672, which prohibits federal contractors and federally assisted construction contractors and subcontractors, who do over \$10,000 in Government business in one year, from discriminating in employment decisions on the basis of race, color, religion, sex, or national origin and requires that government contractors take

affirmative action to ensure that equal opportunity is provided in all aspects of their employment.

- E.O.13166, “Improving Access to Services for Persons with Limited English Proficiency,” which clarifies that national origin discrimination under Title VI includes discrimination on the basis of limited English proficiency (LEP) and requires that the recipient take reasonable steps to ensure that LEP persons have meaningful access to programs and activities.
- Any other applicable non-discrimination law(s).

Generally, Title VII of the Civil Rights Act of 1964, 42 U.S.C. § 2000e et seq, provides that it shall be an unlawful employment practice for an employer to discharge any individual or otherwise to discriminate against an individual with respect to compensation, terms, conditions, or privileges of employment because of such individual’s race, color, religion, sex, or national origin. However, Title VII, 42 U.S.C. § 2000e-1(a), expressly exempts from the prohibition against discrimination on the basis of religion, a religious corporation, association, educational institution, or society with respect to the employment of individuals of a particular religion to perform work connected with the carrying on by such corporation, association, educational institution, or society of its activities.

Applicants must ensure that individuals selected as beneficiaries of support under this grant meet the legal requirements consistent with Supreme Court Decisions including *Fisher*, *Gratz*, and *Grutter*.

#### **Modifications/Prior Approval**

NRC’s prior written approval may be required before a Recipient makes certain budget modifications or undertakes particular activities. If NRC approval is required for changes in the grant or cooperative agreement, it must be requested and obtained from the NRC Grants Officer in advance of the change or obligation of funds. All requests for NRC prior approval, including requests for extensions to the period of performance, must be made, in writing (which includes submission by e-mail), to the designated Grants Officer at least 30 days before the proposed change. The request must be signed by the authorized organizational official. Failure to obtain prior approval, when required, from the NRC Grants Officer, may result in the disallowance of costs, or other enforcement action within NRC's authority.

#### **Lobbying Restrictions**

The Recipient will comply, as applicable, with provisions of the Hatch Act (5 U.S.C. §§ 1501-1508 and 7324-7328) which limits the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

The Recipient will comply with provisions of 31 U.S.C § 1352. This provision generally prohibits the use of Federal funds for lobbying in the Executive or Legislative Branches of the Federal Government in connection with the award, and requires disclosure of the use of non-Federal funds for lobbying.

The Recipient shall submit, at the time of application, a completed “Certification Regarding Lobbying” form, regardless of dollar value.

If applicable, the Recipient receiving in excess of \$100,000.00 in Federal funding shall submit a completed Standard Form (SF-LLL), “Disclosure of Lobbying Activities” for any persons engaged in lobbying activities, as discussed at 31 U.S. Code § 1352 – Limitation on use of

appropriated funds to influence certain Federal contracting and financial transactions. The form concerns the use of non-Federal funds for lobbying within 30 days following the end of the calendar quarter in which there occurs any event that requires disclosure or that materially affects the accuracy of the information contained in any disclosure form previously filed. If the Recipient must submit the SF-LLL, including those received from sub-recipients, contractors, and subcontractors, to the Grants Officer.

  - The Recipient is authorized to transfer funds among direct cost categories up to a cumulative 10 percent of the total approved budget. The Recipient is not allowed to transfer funds if the transfer would cause any Federal appropriation to

be used for purposes other than those consistent with the original intent of the appropriation.

Reports are due within 30 calendar days following the end of the reporting period and must be emailed to the Project Officer at the email addressed indicated in the Notice of Award, and to the Grants Officer at:

[Grants\\_FFR.Resource@nrc.gov](mailto:Grants_FFR.Resource@nrc.gov). (NOTE: There is an underscore between Grants and FFR in the email address.) The SF-425 form and instructions are available at the following URL: [http://www.whitehouse.gov/omb/grants\\_forms/](http://www.whitehouse.gov/omb/grants_forms/).

### **PERFORMANCE PROGRESS REPORTS**

The performance (technical) reports indicated below are subject to [2 CFR §200.328](#).

#### **Faculty Development**

Performance reports must be submitted semi-annually, for the periods ending March 31 and September 30, or any portion thereof, regardless of the award date. Reports are due within 30 days following the end of each reporting period and must be emailed to the Project Officer at the email addressed indicated in the Notice of Award, and to the Grants Officer at: [Grants\\_PPR.Resource@nrc.gov](mailto:Grants_PPR.Resource@nrc.gov). (NOTE: There is an underscore between Grants and PPR in the email address.)

**Final Reports** - The Recipient is required to submit final reports, both Financial (SF-425) and Performance (SF-PPR, SF-PPR-B, SF-PPR-E) within 90 days of the grant expiration. In addition to these reports, a final SF-428, Tangible property report, is also required, if applicable. The final PPR (for Scholarship, Fellowship, and Trade School and Community College Scholarship awards) must include the names of all students with up to date contact information (mailing address, telephone/cell phone, email address). The reports must be emailed to the Project Officer at the email addressed indicated in the Notice of Award, and to the Grants Officer at: [Grants\\_FFR.Resource@nrc.gov](mailto:Grants_FFR.Resource@nrc.gov) and [Grants\\_PPR.Resource@nrc.gov](mailto:Grants_PPR.Resource@nrc.gov). (NOTE: There is an underscore between Grants and FFR and Grants and PPR in the email addresses.)

For grant awards that are modified to add additional Program Descriptions, the recipient is required to address the applicable grant performance metrics associated with all programs. Further, these metrics should be broken out by individual program (e.g. Program A and Program B). This can be done utilizing Block 10, Performance Narrative, of the SF-PPR form. If this block does not have sufficient space, additional pages will be accepted. Sf-PPR-B and SF-PPR-E should be used to address both programs as well.

#### **Period of Performance** – [2 CFR § 200.309](#)

The recipient may charge to the Federal award only allowable costs incurred during the period of performance and any costs incurred before the NRC or pass-through entity made the Federal award that was authorized by the NRC or pass through entity.

Unless otherwise authorized in [2 CFR Part 200](#) or by special award condition, any extension of the award period can only be authorized by the Grants Officer in writing. Assurances of funding from other than the Grants Officer shall not constitute authority to obligate funds for programmatic activities beyond the expiration date.

The NRC Grant Officer may authorize a no cost extension of the period of performance. The recipient must submit a no cost extension request no less than 30 days prior to the award end date. Any request for a no cost extension after the grant has expired will not be approved. However, the NRC has no obligation to provide any additional prospective or incremental funding. Any modification of the award to increase funding and/or to extend the period of performance is at the sole discretion of the NRC.

### **Automated Standard Application For Payments (ASAP) Procedures**

Unless otherwise stated, Recipient payments are made using the Department of Treasury's Automated Standard Application for Payment (ASAP) system, [ASAP.gov](#), through preauthorized electronic funds transfers. To receive payments, Recipients are required to enroll with the Department of Treasury, Financial Management Service, and Regional Financial Centers, which allows them to use the on-line method of withdrawing funds from their ASAP established accounts. The following information is required to make ASAP withdrawals: (1) ASAP account number – the award number found on the cover sheet of the award; (2) Agency Location Code (ALC) – 31000001; and Region Code. Recipients enrolled in the ASAP system do not need to submit a "Request for Advance or Reimbursement" (SF-270).

## **II. Audit Requirements**

### **Audits**

Organization-wide or program-specific audits are performed in accordance with the Single Audit Act of 1996, as amended, and as implemented by [2 CFR Part 200, Subpart F—AUDIT REQUIREMENTS](#). Recipients are subject to the provisions of this subpart if they expend \$750,000 or more in a year in Federal awards. See [2 CFR 200.501](#).

The Form SF-SAC and the Single Audit Reporting packages for fiscal periods ending on or after January 1, 2008 are submitted online, as follows:

1. Create the recipient's online report ID at:  
<http://harvester.census.gov/fac/collect/ddeindex.html>;
2. Complete the Form SF-SAC;
3. Upload the Single Audit;
4. Certify the Submission; and
5. Click "Submit."

Organizations expending less than \$750,000 a year are not required to have an annual audit for that year but must make their grant-related records available to NRC or other designated officials for review or audit.

## **III. Programmatic Requirements**

The recipient is responsible for providing documentation to the NRC that tracks each student's progress in achievement of the academic program for which federal funds were provided. This includes: (1) ensuring the service agreement is signed by the student prior to providing support; (2) providing the NRC with student contact information upon student entry into the program, upon completion or withdrawal from the program, and upon request by the NRC; and (3) monitoring the student's fulfillment of the service agreement for the duration of the award. The NRC shall be notified immediately if a student is not fulfilling the academic program or the service agreement.

### **Grant Performance Metrics**

The Office of Management and Budget requires all Federal Agencies providing funding for educational scholarships and fellowships as well as other educational related funding to report on specific metrics. These metrics are part of the Academic Competitiveness Council's (ACC) 2007 report and specifically relates to Science, Technology, Engineering, and Mathematics (STEM) curricula.

As part of the OMB requirements indicated above (for metric reporting), the recipient shall address the following questions and submit responses with the required progress reports:

### **Faculty Development Metrics:**

1. How many Faculty have been sponsored by NRC funding?
  - a. Response is the number of faculty sponsored, for this reporting period and cumulative to the grant.
  
2. How many items have the sponsored faculty produced, for example, Professional Journal articles, publications, patents, or conference reports?
  - a. Response is the type and number of items (not a bibliography), for this reporting period and cumulative to the grant.

### **Unsatisfactory Performance**

Failure to perform the work in accordance with the terms of the award and maintain at least a satisfactory performance rating may result in designation of the Recipient as high risk and the assignment of special award conditions. Further action may be required as specified in the standard term and condition entitled "Remedies for Noncompliance."

Failure to comply with the award provisions may result in a negative impact on future NRC funding. In addition, the Grants Officer may withhold payments; change the method of payment from advance to reimbursement; impose special award conditions; suspend or terminate the grant.

### **Other Federal Awards With Similar Programmatic Activities**

The Recipient will immediately notify the Project Officer and the Grants Officer in writing if after award, other financial assistance is received to support or fund any portion of the program description stated in the NRC award. NRC will not pay for costs that are funded by other sources.

### **Prohibition Against Assignment By The Recipient**

The Recipient will not transfer, pledge, mortgage, or otherwise assign the award, or any interest to the award, or any claim arising under the award, to any party, banks, trust companies, or other financing or financial institutions without the written approval of the Grants Officer.

### **Site Visits**

The NRC, through authorized representatives, has the right to make site visits to review project accomplishments and management control systems and to provide technical assistance as required. If any site visit is made by the NRC on the premises of the Recipient or contractor under an award, the Recipient shall provide and shall require his/her contractors to provide reasonable access to all facilities and provide necessary assistance for the safety and convenience of the Government representative in the performance of his/her official duties.

## **IV. Additional Requirements**

### **Criminal and Prohibited Activities**

The Program Fraud Civil Remedies Act ([31 U.S.C. §§ 3801-3812](#)), provides for the imposition of civil penalties against persons who make false, fictitious, or fraudulent claims to the Federal government for money (including money representing grant/cooperative agreements, loans, or other benefits).

False statements ([18 U.S.C. § 287](#)), provides that whoever makes or presents any false, fictitious, or fraudulent statements, representations, or claims against the United States shall be subject to imprisonment of not more than five years and shall be subject to a fine in the amount provided by 18 USC §287.

False Claims Act ([31 U.S.C. § 3729 et seq.](#)), provides that suits under this Act can be brought by the government, or a person on behalf of the government, for false claims under federal assistance programs.

Copeland "Anti-Kickback" Act ([18 U.S.C. § 874](#)), prohibits a person or organization engaged in a federally supported project from enticing an employee working on the project from giving up a part of his compensation under an employment contract.

### **American-Made Equipment and Products**

Recipients are encouraged to purchase American-made equipment and products with funding provided under this award.

### **Increasing Seat Belt Use in the United States**

E.O. 13043, amended by E.O. 13652, requires Recipients to encourage employees and contractors to enforce on-the-job seat belt policies and programs when operating company-owned, rented or personally-owned vehicle.

### **Federal Leadership of Reducing Text Messaging While Driving**

E.O. 13513 requires Recipients to encourage employees, sub-awardees, and contractors to adopt and enforce policies that ban text messaging while driving company-owned, rented vehicles or privately owned vehicles when on official Government business or when performing any work for or on behalf of the Federal Government.

### **Federal Employee Expenses**

Federal agencies are barred from accepting funds from a Recipient to pay transportation, travel, or other expenses for any Federal employee unless specifically approved in the terms of the award. Use of award funds (Federal or non-Federal) or the Recipient's provision of in-kind goods or services, for the purposes of transportation, travel, or any other expenses for any Federal employee may raise appropriation augmentation issues. In addition, NRC policy prohibits the acceptance of gifts, including travel payments for Federal employees, from Recipients or applicants regardless of the source.

### **Minority Serving Institutions (MSIs) Initiative**

Pursuant to E.O.s 13230 and 13270, [amended by E.O. 13316](#) and [13385](#), 13532, 13592, 13555, 13515, and 13621, NRC is strongly committed to broadening the participation of MSIs in its financial assistance program. NRC's goals include achieving full participation of MSIs in order to advance the development of human potential, strengthen the Nation's capacity to provide high-quality education, and increase opportunities for MSIs to participate in and benefit from Federal financial assistance programs. NRC encourages all applicants and Recipients to include meaningful participations of MSIs. Institutions eligible to be considered MSIs are listed on the Department of Education website: <http://www.ed.gov/about/offices/list/ocr/edlite-minorityinst.html>

### **Research Misconduct**

Scientific or research misconduct refers to the fabrication, falsification, or plagiarism in proposing, performing, or reviewing research, or in reporting research results. It does not include honest errors or differences of opinions. The Recipient organization has the primary responsibility to investigate allegations and provide reports to the Federal Government. Funds expended on an activity that is determined to be invalid or unreliable because of scientific misconduct may result in a disallowance of costs for which the institution may be liable for repayment to the awarding agency. The Office of Science and Technology Policy at the White House published in the Federal Register on December 6, 2000, a final policy that addressed research misconduct. The policy was developed by the National Science and Technology Council ([65 FR 76260](#)). The NRC requires that any allegation be submitted to the Grants Officer, who will also notify the OIG of such allegation. Generally, the Recipient organization shall investigate the allegation and submit its findings to the Grants Officer. The NRC may accept the Recipient's findings or proceed with its own investigation. The Grants Officer shall inform the Recipient of the NRC's final determination.

### **Publications, Videos, and Acknowledgment of Sponsorship**

Publication of the results or findings of a research project in appropriate professional journals and production of video or other media is encouraged as an important method of recording and reporting scientific information. It is also a constructive means to expand access to federally funded research. The Recipient is required to submit a copy to the NRC and when releasing information related to a funded project include a statement that the project or effort undertaken was or is sponsored by the NRC. The Recipient is also responsible for assuring that every publication of material (including Internet sites and videos) based on or developed under an award, except scientific articles or papers appearing in scientific, technical or professional journals, contains the following disclaimer:

"This **[report/video]** was prepared by **[Recipient name]** under award **[number]** from **[name of operating unit]**, Nuclear Regulatory Commission. The statements, findings, conclusions, and recommendations are those of the author(s) and do not necessarily reflect the view of the **[name of operating unit]** or the US Nuclear Regulatory Commission."

**Trafficking In Victims Protection Act Of 2000 (as amended by the Trafficking Victims Protection Reauthorization Act of 2003)**

Section 106(g) of the Trafficking In Victims Protection Act Of 2000 (as amended as amended, directs on a government-wide basis that:

“...any grant, contract, or cooperative agreement provided or entered into by a Federal department or agency under which funds are to be provided to a private entity, in whole or in part, shall include a condition that authorizes the department or agency to terminate the grant, contract, or cooperative agreement, without penalty, if the recipient or any subrecipient, or the contractor or any subcontractor (i) engages in severe forms of trafficking in persons or has procured a commercial sex act during the period of time that the grant, contract, or cooperative agreement is in effect, or (ii) uses forced labor in the performance of the grant, contract, or cooperative agreement.” (See 22 U.S.C. §7104(g).)
