November 30, 1983

MEMORANDUM FOR: Edward Hill, Leader
Technical Editing Section
Program & Administrative Services Branch
RES

FROM: W. M. Morrison, Acting Branch Chief
Instrumentation & Control Branch
DFO/RES

SUBJECT: REVISION 2 TO REGULATORY GUIDE 1.105, "INSTRUMENT SETPOINTS FOR SAFETY-RELATED SYSTEMS"

Enclosed is a copy of the subject guide, the endorsed consensus standard and a Request for Editorial Services. Also enclosed is the ACRS concurrence on the regulatory positions of the subject guide.

Please note that we are committed to complete milestone #3000 "Printed and Issued" by February 15, 1984. However, we have been informally requested by NRR (M. Virgilio) to have this guide printed by January 16, 1984, in time for a meeting with the GE users group. Because I would like to comply with this request, Mr. Douglas Boehm, the task leader, is ready to sit down with your staff to review any needed editorial changes.

If you have any questions, please give Mr. Boehm a call (Telephone: 443-7975).
