Attention: Mr. J. G. Keppler

Dear Mr. Keppler:

Attached please find a copy of the final ISI Report for the Winter 1980 Inservice Inspection of the Reactor Pressure Vessel and Primary System Piping for the Dresden Nuclear Power Station, Unit 3, Illinois State Number 82800, located in Morris, Illinois. The station is owned and operated by Commonwealth Edison Company, whose address is 72 West Adams Street, Chicago, Illinois.

The Unit's commercial service date is November 16, 1971, and its gross generating capacity is 832 MWe. The reactor pressure vessel was manufactured by Babcock and Wilcox Company, and the prime contractor for the primary system piping was General Electric Company.

The Inservice Inspection was performed from January 3, 1980 to April 24, 1980.

The Authorized Code Inspector was Mr. J. Mislevy from Hartford Steam Boiler Inspection and Insurance Company of Hartford, Connecticut, whose address is Suite 416, 120 South Riverside Plaza, Chicago, Illinois 60606.

The inspections performed, conditions observed, and corrective measures recommended and taken are contained in the attached report.

We certify that the statements made in this report are correct and the examinations and corrective measures taken conform to the rules of the 1974 ASME Code, Section XI, through its 1975 Summer Addenda.

Sincerely,

B. B. Stephenson  
Station Superintendent  
Dresden Nuclear Power Station
