To the Members of the Board:

The parties to the above proceeding have met together in regard to the "Second Amended Contentions of the State of Illinois" attached hereto. Illinois has been authorized by the Applicant and Staff to make this report.

As a result of the discussion and negotiations, the Applicant and Staff agree that Illinois' Second Amended Contentions 2, 3, 4, 5(B), 6, 7, and 8 are acceptable as to language and are admissible in this proceeding.

Applicant accepts the language of Contentions 1, 9, and 10, but does not consider them to be admissible. In particular, Applicant contends that Am. Cont. 9 lacks basis. Applicant objects to the inclusion of the term "dedicated sippers" in Contention 5(A), but does not otherwise object to the admissibility of that Contention.

Staff accepts the language of Contentions 1 and 10, but does not consider them to be admissible. The Staff does not object to the language of Contentions 5(A) or 9 and deems both to be admissible.

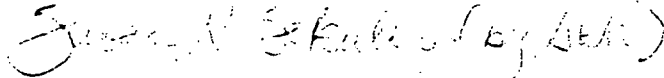

The Applicant's and Staff's reasons for the objections noted above to the contentions were stated at the prehearing conference.

The State of Illinois, Staff, and Applicant have agreed

*DS03  
S  
19/10*

that a decision on the admission of Second Amended Contention 10 should be held in abeyance until October 1, 1980. During the interim, Applicant will make the security plan available to the State for inspection. If the State, after review of the security plan, finds that the plan is inadequate to assure protection against sabotage, as related to the spent fuel modification, the State shall have until October 1, 1980, to modify its security/sabotage contention. Should the State take no action by October 1, 1980, Second Amended Contention 10 shall be deemed withdrawn.

Very truly yours,
