Good afternoon Scott,

As part of NRC's ongoing review of the TMI-2 ISFSI license renewal application, we identified two references that we will need to support our technical review of the application. We request that you please submit these two references to the NRC:

1. Babcock and Wilcox Document, 77-1156615-02, "Canister Structural Analyses Report for Cask Transportation Accident," May 24, 1985, Lynchburg, VA.
2. Babcock and Wilcox Document, 77-11156372-00, "Drop Testing of Defueling Canisters," February 1985.

Please note that the information, once submitted, will be docketed as part of the TMI-2 ISFSI license renewal application. Also, if the information already exists elsewhere on the NRC docket, please provide the reference to the information, as the information need not be resubmitted.

Please let me know if you have any questions about this request, and thank you,  
Kris
