I plan to set up a teleconference between PRB and you as per the MD 8.11. Are there times that you will not be available in the next two or three weeks.

Thanks

Yes there may be additional documents submitted in support of the 2.206 Petition as amended once the NRC PRB establishes and confirms the 1st teleconference call meeting - in accordance with MD 8.11. Moreover - my research in this area continues to date in search of additional information.

Do you have any additional information that you would like to provide in writing to the NRC in support of the 2.206 petition dated May 22, 2017 that you submitted through the email and relates to Florida Power and Light and all other NRC licensees with an AP1000 reactor or reactor design.

Thanks
