MEMORANDUM TO: Annette L. Vietti-Cook
Secretary of the Commission

FROM: Peter J. Habighorst, Acting Deputy Director
Office of International Programs

SUBJECT: UNITECH SERVICES GROUP, INC

A handwritten signature in black ink, appearing to read "Peter J. Habighorst", written over the typed name in the "FROM:" field.

The Office of International Programs staff is currently reviewing UniTech's application to export up to 10,000 metric tons of low-level waste to Canada (XW023) (licensing docket number 11006249); this export application is also the subject of an adjudicatory docket. XW023 incorporates by reference information that is contained in a separate document—UniTech's import license application (IW034). The U.S. Nuclear Regulatory Commission returned UniTech's import license application without action, closing the licensing docket for IW034. UniTech's import application remains as a document in public ADAMS at ADAMS Accession No. ML17024A278. The staff has also placed this document in the licensing docket for UniTech's export application so that all information relevant to the export license application is conveniently located in the same docket for review purposes.
