Please provide the following documents:

1. Internal audits done by Leckenby and Brooks and Perkins on the components of the spent fuel racks respective to the quality assurance program as required by 10 CFR Part 50, App. B, par. 18.
2. Reports made subsequent to the above internal audits which contain information on how problems described in those audits were resolved.
3. Documents from NSC, Leckenby and Brooks and Perkins which contain information on the verification of the design of the spent fuel racks as required by 10 C.F.R. 50, App. B, par. 3.
4. All documents, including Inspection and Enforcement reports for the Quality Assurance/Quality Control program at Dresden for the past 2 years.
5. Minutes of any meetings between Commonwealth Edison Company and NRC re Quality Assurance/Quality Control.
6. All purchase orders between various contractors and subcontractors.
7. Part 21 reports of significant quality deficiencies and the documents containing any details of system for reporting these deficiencies under 10 CFR Part 21.
8. Names, jobs and qualifications of each Quality Assurance person at each company: NSC, Brooks and Perkins, Lechenby and Commonwealth Edison Company.
9. Commonwealth Edison Company programs, plans and procedures for receipt inspections, installation and testing of racks.
