RE: Dresdent Spent Fuel Modification  
Docket Nos. 50-237 and 50-249

Dear Mary Jo:

Enclosed are Olympic Associates' checklist documents relating to their audit of Leckenby. We are producing these documents to you pursuant to the request you made on November 18, 1980, the day before the evidentiary hearings began in Morris and which we were unable to provide you during the hearings. (Tr. at 713-14). I also understand that yesterday, December 3, you requested Phil Steptoe to produce an internal NSC audit of work NSC is doing for Commonwealth Edison in connection with the LaSalle nuclear station. We have already produced all NSC internal audits relating to the Dresden racks and they are numbered D0001552, D0001558-1570, D0001573, and D0001586-D0001596. They were sent to you prior to the hearings. We are locating the requested document and will contact you once we have evaluated this document's relevancy to the Dresden reracking proceeding.

Sincerely,

*Robert G. Fitzgibbons, Jr.*
