(Spent Fuel Pool)
Modification))

Dear Administrative Judges:

The following correction needs to be made in the letter dated June 12, 1981 which accompanied Commonwealth Edison Company's responses to the NRC Staff Technical Review questions which were served upon you by the NRC Staff in its Board Notification dated May 20, 1981. On the second page of this letter it was stated that Applicant needs to receive authorization for the proposed racks by August 1, 1980 to allow sufficient time for installation and preparation for refueling. The correct date is August 1, 1981.

Respectfully submitted,
Robert G. Lyell
