Dear Mr. Keppler:

Commonwealth Edison has reviewed the Reference (a) acknowledgement of our Reference (b) and (c) responses to the subject Inspection Report, and will provide the additional information requested.

Concerning our proposed revisions to the Commonwealth Edison Q.A. Topical Report, within 90 days after submittal of the revision, we will obtain reasonable assurance from NRR of its acceptability. Should the proposed revision require implementation of new standards, or if changes are required to gain NRR acceptance, we will provide your office with an implementation schedule within 90 days after our submittal of the revision. This submittal may require an additional 2 weeks time (until August 14, 1981) to be submitted due to the complexity of the issues involved. This extension was discussed in a July 23, 1981, telephone conversation between Mr. J. Grobe of your staff and T. Rausch of our office, and we understand that this is acceptable.
