Dear Mr. Keppler:

As summarized in Reference (b), Commonwealth Edison has committed to revise the Quality Assurance Topical Report, CE-1-A, to clearly identify the specific regulatory guides and standards which each site is committed to comply with. This action was taken in response to the subject Inspection Report transmitted by Reference (a).

This is to inform you that in Reference (c) (attached), NRR accepted our proposed Revision 19 provided that a few minor changes are made to the submittal. These changes were made, and Revision 19 was transmitted to NRR on August 27, 1981, (see Reference (d), also attached).
