Mr. Darrell G. Eisenhut, Director  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Subject: Dresden Station Units 2 and 3  
Quad Cities Station Units 1 and 2  
Environmental Qualification of  
TMI Action Plan Equipment  
NRC Docket Nos. 50-237/249 and  
50-254/265

References (a): D. M. Crutchfield letter to L. DelGeorge  
dated March 1, 1982

(b): E. D. Swartz letter to D. G. Eisenhut  
dated April 29, 1982

Dear Mr. Eisenhut:

Reference (a) requested the Commonwealth Edison Company to provide information that would adequately cross-reference our previous Dresden and Quad Cities Station submittals regarding Environmental Qualification of Safety-Related Electrical Equipment to our TMI Action Plan equipment. Additionally, specific worksheets in the 79-01B format and qualification documents were requested.

Reference (b) provided an interim response and stated that we did not expect to be in a position to submit completed data sheets (Part III of the attachment to Reference (b)) until July 1, 1982.

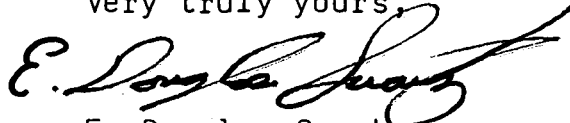

This subject was discussed with Mr. Joseph D. Hegner on June 18 and July 1, 1982. The Commonwealth Edison Company has put forth a good faith effort in preparing the System Component Evaluation Worksheets (SCEW) for submittal. Over 600 contractor man-hours alone have been expended in the preparation of this submittal. The SCEW data sheets have been completed and are currently undergoing an in-house review. We expect to provide the final submittal by August 1, 1982.
