Mr. James G. Keppler, Regional Administrator
 Directorate of Inspection & Enforcement - Region III
 United States Nuclear Regulatory Commission
 799 Roosevelt Road
 Glen Ellyn, Illinois 60137

Dear Mr. Keppler:

Attached please find a copy of the ISI Report for the January 1983 Inservice Inspection of the Reactor Pressure Vessel and Primary System Piping for the Dresden Nuclear Power Station, Unit 2, Illinois State Number 82800, located in Morris, Illinois. The station is owned and operated by Commonwealth Edison Company, whose address is One First National Plaza, P.O. Box 767, Chicago, Illinois 60690.

The Unit's commercial service date is June 9, 1972, and its gross generating capacity is 834 MWe. The reactor pressure vessel was manufactured by Babcock and Wilcox Company, and the prime contractor for the primary system piping was General Electric Company.

The Inservice Inspection was performed from January 10, 1983 to March 29, 1983.

The Authorized Code Inspector was Mr. F. Roose from Hartford Steam Boiler Inspection and Insurance Company of Hartford, Connecticut, whose address is Suite 416, 120 South Riverside Plaza, Chicago, Illinois 60606.

The inspections performed, conditions observed, and corrective measures recommended and taken are contained in the attached report.

We certify that the statements made in this report are correct and the examinations and corrective measures taken conform to the rules of the 1977 ASME Code, Section XI, through its 1979 Summer Addenda.

Sincerely,

APR D.J. Scott
