Dear Mr. Denton:

During your staff's review of the referenced Technical Specification amendment request additional questions were raised on the ten second inhibit logic on the two ADS valves with the lower setpoints. Accordingly we are docketing our architect - engineer's report, in the form of an attachment to this letter, which should answer all the questions on this matter.

If any further questions arise please contact this office.

One (1) signed original and forty (40) copies of this transmittal is provided for your use.

Very truly yours,

B. Rybak
