Dear Mr. Denton:

The Illinois Department of Nuclear Safety (IDNS) respectfully regrets not having responded to this Proposed Technical Specification prior to this time. Our program for providing comments to U.S. NRC had not been implemented when the Federal Register notice was published. NRC's Dr. Robert Gilbert verbally requested IDNS' comments on May 15, 1985.

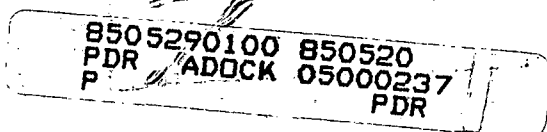

IDNS has reviewed the proposed Technical Specification amendment referenced above. We have determined no adverse findings as a result of that review.

Sincerely,

*Michael C. Parker*  
Michael C. Parker, Chief  
Division of Engineering
