Dear Mr. Denton:

The reference (a) and (b) letters documented the results of our review of Regulatory Guide 1.97 for Dresden and Quad Cities, respectively. The attachment to this letter provides our implementation schedule for the modifications resulting from those reviews. This transmittal fulfills requirement 3b of the attachments to the reference (c) and (d) Confirmatory Orders regarding NUREG-0737 Supplement 1 implementation at Dresden and Quad Cities.

This transmittal completes our requirements for submittals under the references (c) and (d) Confirmatory Orders. Implementation of the modifications identified in our previous submittals is being coordinated via an Integration Program covering all Supplement 1 initiatives. Since we have not yet received your approval of our previous submittals, our implementation schedule is contingent on any changes in work scope which might result from your on-going reviews.
