Mr. J. A. Zwolinski, Director  
BWR Project Directorate No. 1.  
Division of BWR Licensing, NRR  
U.S. Nuclear Regulatory Commission  
Washington, DC. 20555

**Subject: Dresden Station Units 2 and 3  
Detailed Control Room Design Review (DCRDR)  
Final Summary Report - Supplement 1  
NRC Docket Nos. 50-237 and 50-249**

- References (a): B. Rybak letter to H.R. Denton  
dated May 1, 1985
- (b): J.A. Zwolinski letter to D.L. Farrar  
dated October 7, 1985

Dear Mr. Zwolinski:

The reference (b) letter transmitted the results of the NRC staff and consultants review of the Dresden DCRDR Final Summary Report (reference a). In response to the concerns identified in the Audit Report transmitted with reference (b), enclosed please find Supplement 1 to the Dresden DCRDR Summary Report.

Volume 1 of this report supplements Volume 1 of the original "Summary Report". It provides our response to the general comments and concerns documented in appendixes A & C of the Audit Report.

Volume 2 of this report responds to the concerns identified for specific human engineering discrepancies and supersedes Volume 2 of the original Summary Report. (Section 3 of Volume 1 is a cross index of concerns addressed in the NRC Audit Report and CECO responses in this report).

With respect to your comments on the completion schedule for resolving DCRDR deficiencies, the completion dates in the enclosures have been reviewed and updated. However, many items are still scheduled for the second refuel outage. This is due in part to uncertainty in the full scope

of work required (which depends on your final safety evaluation) and our efforts to perform this work in an integrated manner. However, consistent with our mutual goal of accelerating closure of Multi-Plant Actions, we are currently re-reviewing the DCRDR workscope to identify work that can potentially be advanced. I will keep Bob Gilbert informed of our efforts in this area.

If you have any further questions regarding this matter, please contact this office.

One signed original and five (5) copies of this letter and the enclosures are provided for your use.

Very truly yours,

J. R. Wojnarowski  
Nuclear Licensing Administrator
