Docket No. 50-10

Docket No. 50-237 85-01

Docket No. 50-249

Commonwealth Edison Company

ATTN: Mr. Cordell Reed

Vice President

Post Office Box 767

Chicago, IL 60690

Gentlemen:

This refers to the NRC's Systematic Assessment of Licensee Performance (SALP) 5 Board Report for the Dresden Nuclear Plant, our meeting of January 10, 1986, which discussed in detail the contents of the report, and your written comments dated February 3, 1986, relative to this report.

The staff has reviewed your corrective action program in response to the two identified declining trends in the areas of Plant Operations and Fire Protection/Housekeeping. We plan to monitor the results of your actions in these areas. The staff has observed an increase in licensee management attention and awareness, a greater responsiveness to NRC concerns, and increased initiative in identifying and implementing self-imposed corrective actions. We view these changes as positive steps to improve performance.

Based on the formal exchange of information between our respective staffs, and in the absence of verbal identification of discrepancies within the report or formal written comments from you requiring resolution, no changes to the SALP Board Report are necessary.

Enclosed, as an Appendix to the SALP Board Report, is a summary of our meeting which includes names of those persons in attendance. Issuance of the Appendix serves as the final step in our SALP assessment process.

In accordance with Section 2.790 of the NRC's "Rule of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter with the referenced attachments will be placed in the NRC's Public Document Room.

No reply to this letter is required; however, should you have questions on the conclusions reached by NRC, or on the Appendix to the SALP Report, please let us know and we will be pleased to discuss them with you.

Sincerely,

Original signed by
A. Bert Davis

James G. Keppler
Regional Administrator
