Subject: LaSalle County Station Units 1 and 2  
Dresden Station Units 2 and 3  
Quad Cities Station Units 1 and 2  
Zion Station Units 1 and 2  
A Model implementation schedule  
NRC Docket Nos. 50-373/374, 50-237/249,  
50-254/265 and 50-295/304

Reference: (a) June 4, 1986 letter from P.C. LeBlond  
to H.R. Denton

Dear Sir:

Reference (a) contained our schedule for implementing the A Model at the Commonwealth Edison Stations. The purpose of this letter is to revise the schedules transmitted in reference (a).

The schedule provided in reference (a) has been significantly impacted by implementation of a new Quality Assurance procedure regarding software configuration management. Utilization of this new quality procedure will result in a much improved program, however it is going to result in delay of implementation of the A Model at Quad Cities, Dresden, and Zion Stations. Implementation of the LaSalle A Model is currently on schedule but some concern exists regarding the timeliness of the review of the program that will be needed prior to approval.

Based on the above, the revised target dates are as follows:

Zion Station - December 25, 1987

Quad Cities Station - May 30, 1988

Dresden Station - September 30, 1988

App'l  
/10

Until the modifications are complete, the compensatory measures outlined in previous correspondence will be continued.

If there are any further questions in this subject please contact this office.

Sincerely,

A handwritten signature in black ink, appearing to read "C.M. Allen". The signature is fluid and cursive, with the first name "C.M." and the last name "Allen" clearly distinguishable.

C.M. Allen  
Nuclear Licensing Administrator
