Dear Mr. Davis:

A meeting was held with Messrs. L.R. Greger and D.E. Miller, of your staff, on March 11, 1987 regarding the proposed disposal methods for contaminated dirt and other materials at our stations. During the meeting, we discussed various contaminated waste streams at each station and the planned 10 CFR 20.302(a) submittals that would describe the associated disposal procedures. We agreed to provide planned 10 CFR 20.302(a) submittal dates for each waste stream. The Enclosure provides the planned submittal dates.

Please direct any questions regarding this issue to this office.

Very truly yours,

M. S. Turbak
