 Region III
 799 Roosevelt Road
 Glen Ellyn, IL 60137

Subject: Dresden Station Units 2 and 3
 Quad Cities Station Units 1 and 2
 "Embedment Plate Status Report"
NRC Docket Nos. 50-237/249 and 50-254/265

Dear Mr. Davis:

As agreed in Mr. Cordell Reed's letter to you dated March 6, 1987, attached is a status report dated June 18, 1987, describing our progress in resolving questions about the installed configuration of embedment plates at Dresden Units 2 and 3 and Quad Cities Units 1 and 2.

As agreed to with members of your staff, this report is our final weekly status report pertaining to the embedment plate program.

At this time, our programs has been completed with the exception of hangers which fall into three classifications. The first population of hangers are those hangers which are inaccessible for inspection while the units are operating. These hangers will be inspected upon unit availability. The second population of hangers that are not included in the weekly status report are those hangers which are currently undergoing additional reviews to determine whether or not they meet the FSAR. There are approximately forty such hangers. The last population requires the resolution of field walkdown data and the Sargent & Lundy hanger list. These hangers will be subject to additional investigations.

June 19, 1987

All three populations will be addressed in our final executive summary report. A schedule for submittal of this report will be provided to you at a later date.

Very truly yours,

A handwritten signature in cursive script, appearing to read "I. M. Johnson", with a long horizontal flourish extending to the right.

I. M. Johnson
