July 16, 1987

Mr. Thomas E. Murley, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: Dresden Station Units 2 and 3
Reg. Guide 1.97 Commitments
NRC Docket Nos. 50-237 and 50-249

Reference: Letter from J.R. Wojnarowski to H.R. Denton
dated October 6, 1986.

Dear Mr. Murley:

The above referenced letter provided you with completion dates for various Reg. Guide 1.97 modifications. The dates associated with the completion of these mods were tied into the scheduled unit refueling outages.

The refueling outage for Dresden Unit 3 has been rescheduled for January through March of 1988, rather than the September 1987 date as was shown in the above referenced submittal. It is Commonwealth Edison's plan to complete these modifications in accordance with the new outage schedule.

Please direct any questions you may have regarding this change in schedule to this office.

Very truly yours,

I. M. Johnson
Nuclear Licensing Administrator
