September 16, 1987

Mr. Thomas E. Murley, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: Dresden Station Units 2 & 3
Follow-up Response to Questions Raised
During Dresden Station Diagnostic Evaluation
NRC Docket Nos. 50-237 & 249

Dear Mr. Murley:

The attached letter was telecopied to Mr. A. Howell of the Diagnostics Evaluation Team for Dresden on September 15, 1987 at his request, in order to confirm that Mobilux EPO is one of the lubricants undergoing qualification testing.

It should be noted that, while the letter indicates that the test report was originally targeted for the end of the first quarter 1987, it is now expected in October, 1987.

If further information is required, please contact this office.

Very truly yours,

John A. Silady
Nuclear Licensing Administrator

October 24, 1986

Mr. Z. Boxer
Commonwealth Edison Co.
Station Nuclear Engineering
P. O. Box 767
Chicago, Illinois 60690

Dear Mr. Boxer:

This is to confirm our conversation of October 23, 1986 regarding the testing of Mobil products for use in the nuclear industry.

The Test Plan is under way with a target date for the final report at the end of the first quarter 1987.

The approach has been to develop a test plan to satisfy the requirements of the U. S. Nuclear Industry and some of the European Community.

For your information the Mobil domestic products being tested are:

Mobilux EP 0	Mobilgrease 28	Mobilith AW 2
Mobilux EP 2	Mobilith SHC 460	
Mobil DTE Light	Mobil DTE Extra Heavy	Mobil DTE 797
Mobil SHC 624	Mobil SHC 634	

Thank you for your cooperation in this effort.

Very truly yours,

T. E. Covery
Territory Manager
