Mr. James M. Taylor
 Deputy Executive Director for Operations
 U.S. Nuclear Regulatory Commission
 799 Roosevelt Road
 Glen Ellyn, IL 60137

Subject: Dresden Station Unit 3
 "Revised Information Provided in Response
 to the Safety System Outage
 Modification Inspection (SSOMI)
 Design Phase"
NRC Docket No. 50-249

Reference (1): Letter from L.O. DelGeorge to J.M. Taylor,
 dated August 8, 1987

Dear Mr. Taylor:

In the above referenced letter, Commonwealth Edison provided its response to the design portion of the Safety System Outage Modification Inspection (SSOMI) conducted by your office the results of which were documented in NRC Inspection Report No. 50-249/86-009.

In this response, Commonwealth Edison addressed a SSOMI deficiency pertaining to the 250 Volt Battery Sizing Calculation (Reference (1), page 2-38). A value that was provided in the subject response was not consistent with the value found by our Architect Engineer in the additional calculations which were performed to address the SSOMI deficiency.

We are providing a copy of page 2-38 of the above referenced response which has been marked to correspond with the actual values shown in the calculation.

We apologize for any inconvenience that this may have caused your staff.

Please direct any questions that you may have regarding this matter to this office.

Very truly yours,

I. M. Johnson
 Nuclear Licensing Administrator

Mr. M. L. Reed
Station Nuclear Engineering Department
Commonwealth Edison Company
Post Office Box 767
Chicago, Illinois 60690

Dear Mr. Reed:

Enclosed are a copy of Commonwealth Edison Company's (CECO's) August 8, 1986 letter to the Nuclear Regulatory Commission (NRC) and page 2-38 of the Attachment 2. The letter responds to the NRC's Safety System Outage Modification Inspection items.

We reviewed the figures shown on page 2-38 against the Sargent & Lundy Calculation 7056-00-19-10, revision 0 and have identified the values shown are inconsistent. The attached page has been marked to make it correspond with the values shown in the calculation.

We recommend you transmit this revised information to the NRC.

Yours very truly,

C. F. Soltis
