Subject: Dresden Station Units 2 and 3  
Response to NRC Inspection Report  
Nos. 50-237/87006 and 50-249/87-011  
NRC Docket Nos. 50-237 and 50-249

Dear Mr. Davis:

The purpose of this letter is to document an August 19, 1987, telephone conversation between myself and Mr. J. Harrison, of your staff, regarding the above referenced inspection report for which a response is due by August 26, 1987.

Due to the level of activity at Dresden Station with the ongoing Diagnostic and Augmented Inspection Team Dresden 3 Feedwater Transient Evaluations, a 30-day extension for a response to the inspection report was requested. Mr. Harrison concurred in our request.

We will provide a response to the inspection reports by September 25, 1987. Please direct any questions you may have regarding this matter to this office.

Very truly yours,

I. M. Johnson  
Nuclear Licensing Administrator
