Chad,

Attached is a draft of our supplemental responses to the RAIs for the 380-B package. We consider them complete from the perspective of AFS, and would like to obtain agreement from the NRC that these responses will satisfy the reviewers and complete the licensing effort.

If you concur with the responses, please pass them on to Norma and let us know the NRC response. We will proceed to incorporate the changes into a Revision 2 of the SAR, but will await NRC agreement before creating a final, checked pdf document.
