Attachments: Event Notifications 2010 - 2017.xlsx

Greg,

Thank you for your interest in the public website information. Attached is a file containing all of the publicly available Event Notifications from 2010 to the present. The spreadsheet contains the same fields as the file that you mentioned, and an additional column that indicates whether the event was retracted. In accordance with our principles of openness and transparency, this response and data will be made publicly available. If you have any questions, please let me know.

Thanks,

Harold,

Do you have someone who can help with this request?

Thanks,

Trace

Edwin,

I'm afraid I need to refer you to Tracy Orf for this question.

If additional information is needed from the RRPS system, this should come through a request to the Licensing CCB.

Thanks,

Rick Ellsbury

Subject: FW: RE: Event Report dataset

Rick,

The individual requesting for LER related information is looking for additional information that the LER Search tool does not provide but the public dataset does. Is there a simple way to generate the subject public dataset that include events reported within the most recent 5 years for this individual?

Thanks,

Subject: [External_Sender] RE: Event Report dataset

Thanks, but that search tool doesn't provide the event notification info that I am looking for.

I am looking for the initial event notifications similar to:

<https://www.nrc.gov/reading-rm/doc-collections/event-status/event/event-notification-rpt-lastmonth.txt>

But for a larger time range (previous 5 years)

Thank you very much for your help.

Greg

Hello,

NRC provides a search tool on our agency public website that may meet your needs. The URL of this search tool is located at:

<https://lersearch.inl.gov/LERSearchCriteria.aspx>

Thanks for reaching out to the NRC.

Subject: [External_Sender] Event Report dataset

Mr. Leong,

I am trying to retrieve a multi-year range of licensee event report for operating reactors. The dataset located on Data.gov only contains the last months data.

Ultimately, I am trying to determine what portion of event reports are ultimately retracted. Can you assist me in this? I only need the publically available data, and I only need the last 5 years' worth of data (if possible).

The pipe delimited text file format is fine.

Thank you very much.

Greg
