Audit Report

AUDIT OF NRC'S BUDGET EXECUTION PROCESS

OIG-13-A-18

Status of Recommendations

Recommendation 3: Enforce the use of correct budget object codes.

Agency Response Dated
July 10, 2017:

Status: Ongoing

Corrections to Identified BOC Exceptions: The Division of the Controller, Financial Reporting and Accounting Branch continues to work with the Office of Administration, Acquisition Management Division (AMD) to make the BOC corrections to obligation transactions in both Financial Accounting and Integrated Management Information System (FAIMIS) and Strategic Acquisition System (STAQS). Corrections to obligation transactions in FAIMIS will be done using the Document Re-organization Notebook functionality. AMD staff are working with their STAQS Shared Service Provider to develop a solution that will allow for the correction to the BOC code on obligation transactions in STAQS. The estimated completion date for deploying the solution to STAQS production has been extended to March 30, 2018, primarily due to budget funding constraints.

Target Completion Date: 2nd Quarter FY 2018

OIG Analysis: The proposed corrective action addresses the intent of OIG's recommendation. This recommendation will be closed when OIG reviews agency documentation of completed reviews of the accuracy and consistent use of budget object codes.

Status: Resolved.
