

JUL 29 1988

Docket No. 50-237  
Docket No. 50-249

Commonwealth Edison Company  
ATTN: H. Bliss, Nuclear  
Licensing Manager  
Post Office Box 767  
Chicago, IL 60690

Gentlemen:

Thank you for your letter dated July 5, 1988, written in response to Inspection Report 50-237/88009(DRSS); 50-249/88001(DRSS), informing us of your proposed program to control overtime for selected rad/chem technicians at Dresden Station. This program, if properly proceduralized and implemented appears responsive to our stated concern. However, we disagree, in part, with your stated interpretation of NRC policy concerning this matter. We also have concerns regarding implementation of the Generic Letter 82-12 guidance for maintenance and other nonoperations personnel, as well as implementation of the guidance at other CECO nuclear power stations.

As suggested in your July 5, 1988 letter, and discussed with you by telephone on July 22, 1988, we would like to meet with appropriate CECO staff members during late August or early September 1988 to review our respective policies in this matter. We understand that you will coordinate CECO attendance at such a meeting and will communicate with Wayne Shafer or Robert Greger of my staff in this regard.

Sincerely,

Charles E. Morelius, Director  
Division of Radiation Safety  
and Safeguards

cc: Mr. Cordell Reed, Senior  
Vice President  
J. Eenigenburg, Plant Manager  
DCD/DCB (RIDS)  
Licensing Fee Management Branch  
Resident Inspector, RIII  
Richard Hubbard  
J. W. McCaffrey, Chief, Public  
Utilities Division
