Application for Amendment to  
Facility Operating Licenses DPR-19 and DPR-25  
NRC Docket Nos. 50-237 and 50-249

Reference: (a) February 17, 1989, letter from R.A. Chrzanowski  
to D. Muller

Dear Dr. Murley:

In reference (a), pursuant to 10CFR 50.90, Commonwealth Edison proposed to amend Appendix A, Technical Specifications of Facility Operating Licenses, DPF-19 and DPF-25. The proposed amendment requested changes to the Administrative Controls Section 6.0 to include the removal of the Organizational figures, several position title changes, and typographical and editorial changes.

In Attachment A to Reference (a) the revised Technical Specification pages were provided. The purpose of this letter is to provide corrections to information contained on those pages.

In Attachment A, the title "Supervisor of the Off-site Review and Investigation Function" on pages 6-13 for both Units 2 and 3 was removed, however, the new title was omitted. This oversight has been corrected.

The Attachment to this letter provides the revised Technical Specification pages 6-13 to replace those in reference (a).

Please direct any questions you may have concerning this matter to this office.

Very truly yours,

R.A. Chrzanowski
