Rockville, MD 20852-2738

**SUBJECT:** NuScale Power, LLC Submittal of Changes to Figure B 3.2.2-1 of the Technical Specification Bases

**REFERENCES:** Letter from NuScale Power LLC, to Nuclear Regulatory Commission, "NuScale Power, LLC Submittal of the NuScale Standard Plant Design Certification Application," dated December 31, 2016 (ML17013A229)

During a May 15, 2017 public phone call with Bruce Baval of the NRC staff, NuScale Power, LLC (NuScale) discussed an inconsistency between Final Safety Analysis Report (FSAR) Figure 4.3-3, Axial Offset Window, and the Technical Specification (TS) Bases Figure B 3.2.2-1, Axial Offset Window. As a result of this discussion, NuScale revised the TS Bases figure. The Enclosure to this letter provides a mark-up of the NuScale TS Bases figure incorporating the change to correct the inconsistency between the FSAR and TS Bases figures. NuScale will include these changes as part of a future revision to the NuScale Design Certification Application.

This letter makes no regulatory commitments or revisions to any existing regulatory commitments.
