Inspection Summary

Inspection on June 5-13, 1989 (Reports No. 50-237/89016(DRSS); 50-249/89015(DRSS))

Areas Inspected: Management Support, Security Program Plans; Protected and Vital Area Physical Barriers, Detection and Assessment Aids; Protected and Vital Area Access Control of Personnel, Packages and Vehicles; Alarm Stations and Communications; Testing, Maintenance, and Compensatory Measures; and Security Training/Qualification; Licensee actions on previous inspection findings, Information Notice (IN) 89-05 and Security Event Report (SER) 88-001-00 were also reviewed.

Results: The licensee was found to be in compliance with NRC requirements within the areas examined. Previous inspection findings, IN 89-05 and Security Event Report 88-001-00 were closed. An Unresolved Item was identified pertaining to inadequate corporate guidance for logging of security events. An observation pertaining to inexperience on the guard force was noted. Security management support for the security program continues to be good and resources are ample to meet plan commitments.
