dated May 8, 1989.

Mr. Davis:

Enclosed is the revised Commonwealth Edison (CECo) response to the subject Notice of Violation (NOV) and Inspection Report (IR) which evaluated Dresden's modification program and dedication of commercial grade parts. The revisions to the previous response (dated June 7, 1989), which have been discussed with your staff, involve:

- (a) correction of a typographical error in Item 1 on Page 2 of Attachment 2 ("inoperable" should be "operable"), and
- (b) clarifications associated with the corrective action discussion on Page 2 of Attachment 1.

The Attachment 1 clarifications include deleting the reference to LER 050237-88-002-0 (since the Procedures Upgrade Program had been initiated well before February, 1988) and replacing the reference to the August 23, 1988 letter with a more appropriate document (Station Administrative Procedure DAP 9-3).
