Mr. A. Bert Davis
 Regional Administrator
 U.S. Nuclear Regulatory Commission
 Region III
 799 Roosevelt Road
 Glen Ellyn, IL 60137

Dear Mr. Davis:

Subject: Dresden Nuclear Power Station
 Operator Requalification Training Program
 Application of Generic Letter 87-07
NRC Docket 50-237/249

The Dresden Station training programs for Reactor Operator and Senior Reactor Operator received accreditation renewal by INPO in June of 1989. These programs were developed and maintained using a Systematic Approach to Training (SAT). As such, Dresden Station will substitute the accredited performance-based license requalification program for that previously approved by the NRC. This option is being exercised following the guidance in Generic Letter 87-07 as it applies to 10CFR55.59(c).

Please direct any questions that you may have to this office.

Very truly yours,

John A. Silady
 Nuclear Licensing Administrator
