Emmett C. Schuster
President/CEO of the building
Gibson General Hospital
1808 Sherman Drive
Princeton, IN 47670

Dear Mr. Schuster:

Enclosed is Amendment No. 30, which terminates your NRC Material License No. 13-18524-01 in accordance with your request.

In letters dated April 24, 2017, May 10, 2017, June 7, 2017 and July 11, 2017, you requested the termination of License No. 13-18524-01 and the concurrent incorporation of your facility into the license for Medical Outsourcing Solutions (MOS) under License No. 12-35254-01. The amendment for MOS adding your facility to their license was sent under separate cover.

As a nuclear medicine technologist (NMT) from MOS provided licensed activities at Gibson General Hospital (GGH) during the review period, no final status surveys were required.

As discussed in telephone conversations between William Gooch, who consults for MOS, and me on June 7, 2017, June 29, 2017, and July 11, 2017, it was learned that GGH's only nuclear medicine technologist (NMT) retired on May 1, 2017. Since that date, MOS has provided uninterrupted nuclear medicine services to GGH by staffing one of its NMT's there.

Since licensed activities have continued at GGH, a direct merger of GGH into the license for Medical Outsourcing Solutions (MOS) was planned. This termination is the result of that plan. No final status surveys were necessary due to licensed activities being conducted continuously while the amendment and termination were pending completion.

No remediation of your facilities is required for GGH and License Number 13-18524-01 is hereby terminated with the enclosed Amendment No. 30.

If you have any questions, you may contact me directly at (630) 829-9841 and my fax number is (630) 515-1078.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

E. Schuster
