NOTICE OF REQUEST FOR EXTENSION IN SUBMITTING EVALUATIONS

As required by 10 CFR § 50.46(a), certain licensees and applicants must submit, consistent with 10 CFR § 50.46(a)(2)(ii), an evaluation of the performance of emergency core cooling systems (ECCS) by August 5, 1974, unless an extension thereto has been obtained from the Director of Regulation pursuant to § 50.46(a)(2)(iii). As required by § 50.46(a)(2)(iii), notice is hereby given that the Director of Regulation has received and is considering a request from the Commonwealth Edison Company (the licensee) for a two month extension of the submittal date for the Dresden 2 and 3 ECCS evaluation. The request for extension is accompanied by an affidavit outlining the reasons why the evaluation will not be complete and the time necessary to complete it. The licensee is authorized by Facility Operating License Nos. DPR-19 and DPR-25 to operate the Dresden 2 and 3 facilities located in Grundy County, Illinois, at steady-state power levels up to 2527 MWt.

The extension may be granted upon a finding that good cause has been shown for granting of the extension. The Director of Regulation will consider and issue a determination with respect to the request for extension as required by 10 CFR 50.46(a)(2)(iii). In that connection, the Director of Regulation invites the submission of views and comments by any interested persons. Such views and comments should be submitted in writing, addressed to the Director of Licensing, USAEC - Regulation, Washington, D. C. 20545, not later than **JUL 25 1974**,

A copy of the request for extension dated June 20, 1974 and related correspondence and documents are available for public inspection at the Commission's Public Document Room, 1717 H Street, N. W., Washington, D. C., and at the Morris Public Library, 604 Liberty Street, Morris, Illinois 60451.
