Mr. Harlen K. Hoyt, Superintendent
 Dresden Nuclear Power Station
 Commonwealth Edison Company
 R. R. #1
 Morris, Illinois 60450

Dear Mr. Hoyt:

We have received your letter, dated July 22, 1970, including revised pages to your procedures for the operation of Dresden Unit #2.

In reviewing these changes we are having difficulty in determining how to arrange these changes in those procedures we received from you prior to the operation of Unit #2.

These difficulties arise because, (1) the present index we are using is numbered GEK-786 and apparently you have adopted a new index, (2) no instructions were received with the procedures informing us which pages to remove from the procedures or where the unnumbered pages are to be inserted, (3) no explanation was received indicating what changes were made to the procedures, and (4) the pages are not dated or signed and hence, we are not completely confident that we have received the latest revisions.

Please furnish us with the necessary information so that we may properly handle these revisions.

Also, please inform us if the procedures we have in our possession for the operation of Dresden Unit #2 are applicable to Unit #3.

Sincerely,

ORIGINAL SIGNED BY
 P. F. COLLINS
 Paul F. Collins, Chief
 Operator Licensing Branch
 Division of Reactor Licensing
