Mr. Paul F. Collins, Chief
Operator Licensing Branch
Division of Reactor Licensing
U.S. Atomic Energy Commission
Washington, D.C. 20545

Dear Mr. Collins:

In response to your request to review the current status of V. Danese's vision, we have investigated the situation as discussed with Mr. Campbell yesterday.

The present Operator's License OP-2074 renewed April 28, 1968 for V. Danese does not require wearing of corrective eyeglasses. As a result of our investigation it appears that no change has occurred which should alter this status. V. Danese has no difficulty reading the control board instrument labels and identification at arms length. He does have bifocal eyeglasses for close reading and the upper part is clear glass for normal distance vision. Therefore he does need the glasses for close work, reading print etc. He can perform all control room operations without glasses and without difficulty. His eyes were examined last December by an eye doctor and his vision was also checked at that time and his existing eyeglass prescription was correct. As one further check vision tests were requested. A report is enclosed.

Regarding RO, SRO and senior fuel handlers licensing, we are forwarding completed applications for fuel handling for five foremen.

In view of commitments of your staff as recently discussed with Mr. Campbell we suggest the following schedule for licensing examinations for fuel handling as well as RO and SRO candidates.

<u>Fuel Handling</u>	-	<u>Limited Senior License Units 1 and 2</u>
H.R. Whitehead		Written and oral (9/22/69-9/26/69)
D.D. Simpson		
F.R. Stellwag		
P.T. Becknell		
C.E. Sargent		

SRO Unit 2

First Reapplication

J.W. Bauer
W.L. Roman
J.E. DeLeo
W.B. Barthelmes

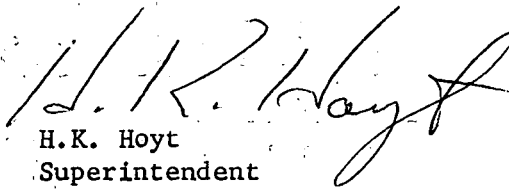

Senior Oral and Demonstration on Simulator
(10/20/69 - 10/25/69)

RO Unit 2

C. Lincoln
G.W. Harbin
J.T. Williams
R.L. Drauden
K.J. Wiers

Written and RO oral only (first reapplication)
Written, oral and simulator demonstration
Written, oral and simulator demonstration
Written, oral and simulator demonstration
Written, oral and simulator demonstration
(All above during 10/20/69 - 10/25/69)

The above suggested schedule dates are given with a reactor loading date presently schedules as 10-31-69. Please call if you have any questions.

H.K. Hoyt
Superintendent
