Morris, Illinois 60450
August 11, 1970

Mr. Paul F. Collins, Chief
Operator Licensing Branch
Division of Reactor Licensing
Atomic Energy Commission
Washington, D.C. 20545

SUBJECT: DRESDEN STATION UNIT 3 SENIOR REACTOR OPERATOR AND REACTOR OPERATOR LICENSING

Dear Mr. Collins:

The Commonwealth Edison's Dresden Nuclear Power Station will require approximately twenty-four (24) Senior Reactor Operator and twenty (20) Reactor Operator licenses to man and operate Unit 3. (In addition, General Electric Company will require approximately eight (8) Senior Reactor Operator licenses.)

Almost all of the applicants who will be applying for licenses to operate Unit 3 will have been licensed to operate Dresden Unit 1 and Unit 2. The exceptions are identified in the attached table.

The Commonwealth Edison Company requests a waiver of the operating license examination for Unit 3 operators for those persons listed in the attached table. This request is based on their operating experience in Units 1 and 2 and in accordance with Section 55.2 and of CFR Part 55. The experience (10 years) gained on Unit 1 classified as a similar unit to Units 2 and 3 and the experience (1 year) gained on Unit 2 classified as an identical unit to Unit 3 has developed these individuals to support this request.

The attached table of applicants names shows type of license requested for each applicant as well as their respective active license history. As a reference, in addition to your files, past experience of these applicants may be found in the Unit 2-3 Safety Analysis Report amendment 13 and 14, page B. 2-19.

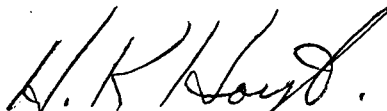

Confirming the previously discussed schedule for Unit 3 startup is as follows:

- Exhaustive
contingents*
1. Complete Units 2 and 3 combined operating procedures and mail by 9/7/70.
 2. Each applicant submit his personal application for Unit 3 during month of August preceded by this letter.

3. Schedule the exams that are required, the week of 9/21/70 or 9/28/70.
4. Initial loading of Unit 3 is planned for 10/7/70.
5. Response on the request for waivers and the required examination of remaining applicants must fit the above program.

The information on waivers granted should be given us by 9/7/70 to permit planning of work and etc.

If you have any questions, please call me or Messrs. George Redman or William Worden at Dresden Station.

H. K. Hoyt
Station Superintendent

HKH:jlh

-3- AS OF 9/4/70 (345P) These record show applications still to come in etc
