Dear Mr. Scott:

We have received and reviewed your application for a senior operator license for the Dresden Nuclear Power Station, Unit #2. We find that we need additional information in order to determine your eligibility to be administered an examination.

In our letter to Mr. Hoyt, dated August 20, 1970, we detailed the eligibility requirements for Dresden personnel for the administration of examinations. Your application did not indicate that you have completed the program indicated in our letter. Particularly, item four, that requires a specific number of control manipulations on the Dresden reactor.

Upon receipt of this information, we will continue to process your application.

Sincerely yours,
