Office of Nuclear Reactor Regulation
Attention: Mr. Victor Stello, Director
Division of Operating Reactors
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Stello:

Re: St. Lucie Unit No. 1
Docket No. 50-335
Completion of Condition of License D

As modified by Amendment No. 27, Condition of License D, contained in Enclosure 1 to License No. DPR-67 for St. Lucie Unit 1, requires that additional shielding for the reactor cavity be installed during the next scheduled reactor shutdown of sufficient duration, but not later than the next refueling shutdown. This is to advise you that the required shielding has been installed and that Condition of License D is now satisfied. Accordingly, we request that Condition of License D be deleted.

FPL has determined that this is a Class II Amendment in accordance with 10 CFR 170.22 and accordingly encloses a check in the amount of \$1,200.00.

Yours very truly,

Lic
