DOCKET NO. 50-335

Florida Power and Light Company  
ATTN: Mr. Robert E. Uhrig  
Vice President  
P.O. Box 013100  
Miami, Florida 33101

Gentlemen:

This office has received a copy of your application dated November 16, 1978, (L-78-365), for Amendment to Facility License No. DPR-67 which you filed with the Office of Nuclear Reactor Regulation. The application proposes revisions to the St. Lucie Unit No. 1 Technical Specifications relating to Ultimate Heat Sink. Your application was accompanied by a Class II amendment fee of \$1,200.

We have determined from our preliminary review that the requested action falls in Class III rather than Class II because it involves review of a single environmental issue which requires an amendment fee of \$4,000. You should forward the additional fee of \$2,800 promptly to this office. Fees are payable to the U.S. Nuclear Regulatory Commission by check, draft, or money order. If after the final evaluation of your application is completed it is determined that it was incorrectly classified, you will be refunded any overpayment or billed for any additional amount due.

If we can be of assistance to you, call 301/492-7225.

Sincerely,

Original Signed by:  
Reba M. Diggs
