Gentlemen:

This refers to the investigation conducted by Mr. D. R. McGuire and others of this office on January 22-26, 1979, of activities authorized by NRC Operating License No. DPR-67 at St. Lucie and to the discussion of our findings with Mr. C. M. Wethy on January 26 and 30, 1979. This also refers to discussions between Mr. J. P. O'Reilly of this office and Mr. A. D. Schmidt of your Corporate Office on February 2, 1979.

Areas examined during the investigation and our findings are discussed in the enclosed investigation report. Within these areas, the investigation consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the investigators.

During the investigation, it was found that certain activities under your license appear to be in noncompliance with NRC requirements. These items and references to pertinent requirements are listed in the Notice of Violation enclosed herewith as Appendix A. This notice is sent to you pursuant to the provisions of Section 2.201 of the NRC's "Rules of Practice", Part 2, Title 10, Code of Federal Regulations. Section 2.201 requires you to submit to this office, within 20 days of your receipt of this notice, a written statement or explanation in reply including: (1) corrective steps which have been taken by you and the results achieved; (2) corrective steps which will be taken to avoid further noncompliance; and (3) the date when full compliance will be achieved.

In addition to the need for corrective action regarding the specific items of noncompliance, we are concerned about the procedural implementation of your security program and management control systems that permitted their occurrence. Consequently, in your reply, you should describe those actions taken or planned to improve the effectiveness of your security procedures and management control system.

In accordance with Section 2.790(d) of the NRC's "Rules of Practice", Part 2, Title 10, Code of Federal Regulations, activities involving details of safeguards and security measures are exempt from public disclosure; therefore, Part II of the investigation report will not be placed in the Public Document Room. If Appendix A or Part I of the investigative report contains information that you (or your contractor) believe to be proprietary, it is necessary that you make a written application within 20 days to this office to withhold such information from public disclosure. Any such application must include a full statement of the reasons on the basis of which it is claimed that the information is proprietary, and should be prepared so that proprietary information identified in the application is contained in a separate part of the document. If we do not hear from you in this regard within the specified period, Appendix A and Part I of the investigation report will be placed in the Public Document Room.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

James P. O'Reilly
Director
