

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

August 1, 2017

Mr. Gary Peters, Director
Regulatory Affairs
AREVA Inc.
3315 Old Forest Road
Lynchburg, VA 24501

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION REGARDING APPLICATION FOR
U.S. NUCLEAR REGULATORY COMMISSION CONSENT TO LICENSE
TRANSFERS (COST ACTIVITY CODE L33441)

Dear Mr. Peters:

We have reviewed your request for consent to the transfer of control of licenses held by AREVA, Inc. submitted by letter dated April 14, 2017, and supplemented by letter dated July 14, 2017. Our review has identified additional information that is needed before a final action can be taken. The information listed below should be provided to us within 30 days of the date of this letter. Please reference Cost Activity Code L33441 for this action in your response.

1. In addition to the financial statement for Electricite de France, provide financial statements for AREVA, Inc. including the last 3 years of audited statements and 2 years of pro-forma statements. This information is needed to understand the financial impact the reorganization and the proposed transfer of control are having on the licensee (AREVA, Inc.), and to verify that we have full information of the transaction as required by Title 10 of the *Code of Federal Regulations* (10 CFR), Section 70.36.
2. Confirm that the simplified organizational charts show all of the companies in the ownership chain for AREVA Inc. and provide additional information regarding other investors and the percentage of ownership if it becomes available. This information is needed to verify that we have full information as required by 10 CFR 70.36.
3. Submit amendment requests to update the company name on License Nos. XSNM3471, XSNM3551, XCOM1202, and IW009. This action is needed to verify compliance with 10 CFR 110.32 which requires, in part, that a specific license include the name and address of the licensee.

In accordance with 10 CFR 2.390, a copy of this letter will be available electronically for public inspection in the U.S. Nuclear Regulatory Commission (NRC) Public Document Room and from the Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

G. Peters
