Office of Nuclear Reactor Regulation  
Attention: Mr. R. W. Reid, Chief  
Operating Reactors Branch #4  
Division of Operating Reactors  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Reid:

Re: St. Lucie Unit 1  
Docket No. 50-335  
Containment Purge

- References: (1) NRC letter dated September 27, 1979  
from Darrell G. Eisenhut to  
All Light Water Reactors
- (2) NRC letter dated October 23, 1979  
from R. W. Reid to R. E. Uhrig  
(applicable to Docket No. 50-335)

The referenced letters request information and commitments regarding contain-  
ment venting and purging during normal operation. We are expediting  
resolution of this issue with our NSSS vendor, architect-engineer, and  
purge valve manufacturer.

Rather than fragment our efforts by providing a separate response to each  
of the referenced letters, we would prefer to respond with a single report  
in December. Consequently, we have scheduled December 13, 1979 as the due  
date for submittal of a combined response to References (1) and (2).

Please call if you have additional questions on this subject,

Very truly yours,

Robert E. Uhrig  
Vice President  
Advanced Systems & Technology
