The first part of the document discusses the importance of maintaining accurate records and the role of the various departments involved. It highlights the need for clear communication and coordination between different units to ensure that all tasks are completed efficiently and effectively.

In the second section, the author details the specific responsibilities of each department and how they contribute to the overall mission. This includes a thorough review of the current status of various projects and the identification of any potential risks or challenges that may arise.

The third part of the document focuses on the implementation of the proposed plan, outlining the key steps and milestones that must be achieved. It emphasizes the importance of regular monitoring and reporting to ensure that progress is being made and that any deviations from the plan are promptly addressed.

Finally, the document concludes with a summary of the key findings and recommendations. It stresses the need for continued collaboration and support from all stakeholders to ensure the successful completion of the project and the achievement of the organization's goals.

Office of Nuclear Reactor Regulation
Attention: Mr. R. W. Reid, Chief
Operating Reactors Branch #4
Division of Operating Reactors
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Reid:

Re: St. Lucie Unit 1
Docket No. 50-335
Containment Purge

Due to end of the year schedule/manpower constraints, and our heavy workload associated with TMI-2 Lessons Learned, we are unable to respond at this time to your November 5, 1979 information request regarding containment purge. We plan to respond by February 15, 1980.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology
