Subject: [External_Sender] Zion LTP/ RAI Information

John,

Six copies of the draft Zion LTP revision and the associated RAI responses are being sent to you on CD via overnite mail this afternoon. One copy is being mailed to Bill Lin. To help in NRC's review, as previously discussed, ZS has compiled a change matrix that correlates the LTP change(s) to the RAI that drove the change. The matrix will be provided via email by Thursday.

We are requesting 3-4 hours during our March 22nd meeting to ensure adequate time is available to discuss necessary LTP issues for both Zion and LACBWR. Please let us know if you can support that amount of time.
