Dear Mr. Griffin:

This refers to your application for a radiography license dated April 3, 2017 (ML17121A129). We reviewed your application and conducted a pre-licensing site visit and an on-site security review on July 10-11, 2017 at your facility. Based on the on-site security review, we determined that you were not ready to implement the security requirements specified in Title 10 of Code of Federal Regulations (CFR) Part 37, "Physical Protection of Category 1 and Category 2 Quantities of Radioactive Material". This matter was discussed with Mr. Eric Engen, the proposed Radiation Safety Officer, and your staff during the site visit, and subsequent conversations via telephone and electronic mail.

On July 26, 2017, we received a letter dated July 21, 2017 (ML17207A510) from Mr. Engen. In the letter, Mr. Engen requests to withdraw the application at this time. Based on the information above, we have voided your request. This action is without prejudice to resubmission. If you resubmit your application, please refer Mail Control Number 594658 in the application. Please note that we may conduct another on-site security review after we received your application.

If you have any questions or require clarification on any of the information stated above, please contact us at (630) 829-9887.

In accordance with Title 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,
