Robert L. Baer, Chief
Light Water Reactors Branch No. 2
Division of Project Management
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Baer:

Re: Use of NUKEM 750 As Expansion Joint
Filler Inside Containment

By your letter of April 10, 1980, you requested that certain information relating to the use of NUKEM 750 as an expansion joint filler inside containment be provided by May 30, 1980.

Florida Power & Light Company has contacted Ameron and requested the technical basis for use of NUKEM 750 as a qualified caulk. While it appears that the information will not be available by May 30, 1980, we anticipate a submittal date of July 30, 1980.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology
